

HORRIBLE FIRE TRAGEDY

CLOTHES BURN OFF WOMAN AND DEATH FOLLOWS

Died on the Day of His Wife's Funeral—Found Dead in Bed and Other Sudden Deaths:

MRS. BERTHA CARBAUGH wife of Joseph Carbaugh, proprietor of one of the brick plants at Berlin Junction died on last Tuesday morning from burns received on Monday evening. Mrs. Carbaugh was at home alone with her six children on Monday evening. Mr. Carbaugh had gone to New Oxford. Some of the children had been put to bed when about 8:30, a brother of Mr. Carbaugh and two men engaged with him at work in placing the new boiler in the Carbaugh brick plant heard screams and saw flames near the Joseph Carbaugh home. They ran to the house and found Mrs. Carbaugh lying in the yard with her clothing afire. They quickly extinguished the fire but when found the clothing had been almost entirely burned from the body and the woman was horribly burned from head to foot. They carried her into the home and sent for Dr. Sheetz of New Oxford, who found the head, face, neck and other parts of body severely burned and that the woman was beyond medical aid, dying about five hours afterwards. She suffered greatly and was conscious a part of the time. Just how her clothing became ignited is not known and she evidently rushed from house into yard to save her home and children from destruction. Mrs. Carbaugh was a daughter of Mrs. Josephine McMaster of Bonneauville and was aged 33 years 6 months and 17 days. About ten years ago she married Joseph Carbaugh, who survives her with six small children, the youngest of whom is but two months old. She is also survived by her mother and several brothers and sisters. The funeral was held on last Thursday morning, Rev. Father Martin conducting a mass of requiem in the church of the Immaculate Conception of New Oxford and interment was made in the Catholic Cemetery of latter place.

Mrs. Harnish died on Sunday, April 5th and funeral was held last Friday morning, services being conducted by Rev. J. E. Francis of the United Brethren Church, assisted by Rev. F. S. Lundaman of Littlestown, with interment at Christ Church near Littlestown. A few hours after the funeral Mr. Harnish passed away and funeral was held on Saturday, services being conducted by same clergymen officiating at wife's funeral. Mr. and Mrs. Harnish had been members of the United Brethren Church for about 60 years. He leaves one daughter and four sons, Miss Nannie at home, Rev. Oliver P. Harnish of Hutchinson, Kansas, Harry W. Harnish of San Francisco, Cal., Clinton S. Harnish of Albany, Oregon and Theodore H. Harnish of Peoria, Illinois.

He went to live with his son about Christmas, before that he had been living in this place, serving as one of the battlefield guards. Mr. Freeman was born in Strasban township and when a young man helped in running the old York Springs Sulphur Springs Hotel when it was in the days of its prosperity. The proprietor of the hotel at that time was a Mr. Moul and Mr. Freeman

married a daughter of the proprietor. Later the family moved to Gettysburg bringing with them the widow of Mr. Moul and "Mother Moul" is a name that became dear to many student boys of a generation ago. Mr. Freeman was a veteran of the Civil War and was a member of Corporal Skelly Post No. 9 G. A. R. The body was brought to this place Thursday morning and taken to the Post Room and funeral took place from that point and he was buried with last rites of a soldier, the Sons of Veterans attending and firing a volley over his grave. He leaves two daughters and two sons, Bertha, Ida and Louis of Philadelphia and Carl of York Haven.

Mother, without thee we're lonely;
Death's deep gloom invades our home,
But, although we do bemoan thee,
Still we say, "God's will be done."

Hour by hour we saw her fade and
fastly sink away,
Yet in our hearts we prayed that she
might longer stay;
Oh tender and sweet was the master's
voice,
As he lovingly called to her,
Come over the line, it is only a step,
I am waiting my loved one for thee.

Fruit Growers' Meeting.

The Fruit Growers' Association of Adams County held their 51st regular meeting in their hall at Bendersville last Saturday evening with following program:

W. H. Black read a very interesting paper on fungous growth.

The general topic for discussion was the condition of fruit buds and other effects of the winter in orchards. Every member present was unanimous in asserting that the buds on peach, plum and cherry trees were in a most healthy condition; had not been injured in any way and that prospects were bright for a big fruit year as far as spring has advanced. The buds on young apple trees were never in a better condition and if there are no mishaps the year ought to be a record breaker in an apple crop.

High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

Unclaimed Letters.

The following unclaimed letters remain in the Gettysburg Post Office, April 13, 1908:

DARING ESCAPE FROM JAIL

CLEVERLY PLANNED ESCAPE MADE BY J. MILTON CLAYBAUGH

Rope Made from Blanket Breaking Landed Him Outside the Jail with a Broken Leg.

J. Milton Carbaugh awaiting trial in jail for forgery of twelve to fourteen notes, made evidence against himself on last Wednesday night by a well planned and daring escape from jail, with the result that he is more a prisoner than before having a broken left leg.

Claybaugh had been caught near Hagerstown and brought to jail by county Detective Wilson about two weeks before but the nearness of the April Court evidently suggested the escape to him. The attempt was cleverly planned but the chances are that he would have been recaptured even if the accident had not happened.

Claybaugh arranged his bed so as to deceive Sheriff Colestock when he made the last round of the jail last Wednesday night. The Sheriff was deceived and looked all the cell doors and the corridors and departed none the wiser that Claybaugh was hidden in the bath room.

About eleven o'clock in the night Claybaugh ventured from his hiding place into the main corridor and proceeded to break the lock to the door in the south end of the corridor leading into the yard. Having gained the yard he found he had much to do before he could scale the wall. He found in the yard an empty barrel which had contained disinfectants. This barrel he rolled to the south east corner of the yard. Then on top of the barrel he placed one of the long benches taken from the main corridor of the jail. He had barrel and bench propped securely with pieces of cord wood from the wood pile in yard.

This contrivance placed him near the top of the wall. The rest looked easy with a rope. This he made out of an old blanket, tearing it in strips and tying the strips together, and so that the knots would not slip he took time to wind and tie them with cord. One end of this blanket rope he tied securely to an iron bar in the wall and started down this rope to the alley in rear of jail. The rope broke from some cause and landed Claybaugh in the alley with a fall of about fifteen feet breaking the left leg near the ankle and smashing small bones at the instep.

Claybaugh made some attempt to go even in this condition, getting as far as the run a hundred yards south of the jail wall, but his suffering was intense and he crawled back to the jail wall and about the time he knew Sheriff Colestock and family would be getting up began to call for help. He was heard by Mrs. Colestock and he was soon safe in jail again and a physician summoned. Dr. Howard L. Diehl found the leg in a very ugly condition, a compound fracture with other bones mashed to hold the prisoner to his cot for some time.

Trolley Construction Work.

"Camp Dobbins" has been established on the Worley farm, near Brushstown, along the line of the Hanover and Littlestown trolley, and consists of a tented village with comfortable quarters for man and beast. There are separate camps for the different "races," and meal time is an interesting occasion in camp.

When the construction gang is swung into action, you find four divisions of laborers each following a separate line of work. While the men at the plows reduce the grades, the ground is scooped to the side and later hauled by the teamsters to fill up the low spots. While the grading is being done another gang are digging the holes for the trolley poles, which are being placed as fast as they are received.

Mr. Dobbins now has about 60 head of horses and mules in harness and 50 men operating the plows, scoop shovels and wagons and the dirt has been flying. Great progress has already been made and there will be no cessation of activity until the road is completed, which, they say, will be by July 1st.

Receiver for Transit Company.

The Gettysburg Transit Company has gone into the hands of a receiver. On last Friday on bill in equity filed in the court of Common Pleas of this county C. Taylor Leland of Philadelphia was appointed receiver. The bill set out that there had been default in the payment of interest coupons on the \$100,000 of bonds for the period of ten years so that debt and interest amounted to \$150,000 and that there was a general indebtedness of over \$8000, a large part of this indebtedness being held by Mr. Leland.

When Mr. Leland took charge of the plant about five years ago he found that many repairs were needed. He began to make a number of these, advancing the money. He soon found that it would take more money to put the railway in first class condition than the earnings provided.

At annual meeting in Jan., as Sec. and Treasurer he presented a report to the Stockholders, who are also the bondholders and urged that they all unite in paying all outstanding claims and putting up enough money to put plant in good shape. A bondholder's committee was appointed and they had a number of meetings in Philadelphia and while a number were willing to come to the help of the company, others refused to do a single thing. This situation along with the condition of a number of outstanding claims made it necessary to ask for the appointment of a receiver and go on to a foreclosure of the mortgage.

There will be no local loss by reason of these proceedings, as three fourths of amount of the general claims is held by Mr. Leland individually and a large portion of balance by outsiders.

This proceeding will in no wise affect the Keystone Electric Light, Heat and Power Company, which is perfectly solvent, meeting all obligations and doing a large lighting business.

The following current business has been disposed of by Judge Swope at chambers.

Upon application of the Hanover and McSherrystown Street Railway Co. a citation was awarded on heirs at law of Henry Kindig, late of Union township, to show cause why a decree of specific performance of contract should not be made and deed executed and delivered for right of way contracted to be given by decedent and \$500 was allowed to be paid into Court by said railway for use of the widow and heirs of Henry Kindig, dec'd.

Yesterday Adjutant General Stewart accompanied by Major General Wiley, and Brigadier Generals Bowman, Huling and Dougherty, arrived here. The purpose of their visit is to look over the ground and select camp sites for the separate organizations. They met a number of our citizens and arranged for a water supply and transportation facilities for camp equipment and commissary and quartermaster stores. Headquarters will be established near the famous "Bloody Angle," where Pickett's Confederates met their defeat, and a separate tent will be pitched for Governor Stuart, who is expected to get in several days at the campment. The troops will all be supplied with their new uniforms by the time the encampment begins, and the government will supply them with the new regulation rifle.

MEMORIAL DAY ORATOR

SENATOR P. C. KNOX HAS UNQUALIFIEDLY ACCEPTED.

And Decoration Day 1908 Ought to be a Great Day for Gettysburg.

United States Senator Philander C. Knox of Pennsylvania, a prominent possibility for the Republican nomination for President will be the orator on Memorial Day at Gettysburg.

Dr. T. C. Billheimer was the chairman of the committee of Corporal Skelly Post of this place to secure an orator. Congressman Lefean was interested in the matter and he asked Senator Knox to accept the honor. At first Senator Knox was not able to see how he could be here and it was no more than a hope that he might be able to serve. Mr. Lefean kept at him persistently until he secured the unqualified consent of Mr. Knox to be here and deliver the oration.

No more suitable person could have been selected than Senator Knox as he is very much in the public eye at the present time and every Pennsylvanian believes he would be the strongest Republican candidate for President, if the big stick was put out of sight and the people allowed to name the man.

Senator Knox speaking on Memorial Day a few weeks before the Republican National Convention at Chicago ought to make a great day for Gettysburg.

My Baby Sleeping.

Forgotten the toy that has erst while delighted,
Gone all the grief that so lately be-
reaved.
Here lies the "Teddy" he fondled,
Then the pet rattle that broken, so
grieved.

Mother's soft breast was his solace one
minute,
Next he lay, smiling serenely, asleep.
Tight clings a hand with my ribbons
caught in it.
Trembles a tear on the lashes dark
sweep.

Just a wee pause in the smiling and
weeping.
Just a brief respite from frolic and run.
Sleep! for thy mother a vigil is keep-
ing.
Rest! for thy life work hath not yet
begun.

All too soon cometh the time of thy
toiling,
All too swift passeth the hour of play
On crowd the years with their sorrow
and soiling.
Soon must thy babyhood vanish away.

Soon shall the world claim thy coming
and going,
Hours now idle must purposeful be,
Stretcheth the scene of thy life past
my knowing.
Where lie the countries these shut
eyes shall see?

How deep the waters this form shall
pass over?
How many havens shall shelter this
head?
Who will be friend to thee? Who will
be lover?
When shalt thou laugh and what
tears must thou shed?

What tasks are set for thy pink dim-
pled fingers?
Whither shall wonder the fair, naked
feet?
Grasp this glad moment while flying
it lingers,
Tarry awhile in these paths, flower-
sweet.

Soon shall the land gather grime from
earth's labor,
Soon must the feet for the world's
ways be shod.
Will the hand always bear aid to a
neighbor?
Walk the feet over a pathway toward
God?

Mother, rejoice in this hour tho fleet-
ing.
So little while is thy darling a child!
Many fierce struggles thy strength
may be meeting,
Far from thy helping, in realms
strange and wild.

Lavish thy love while thine hour re-
maineth,
Kiss and caress whilst thou happily
may.
Hoard every treasure thy memory at-
taineth,
Soft prattled word and quaint, baby-
like way.

Picture the smile on those lips parting
softly.
Azure of eyes and the golden of hair.
Take time from duties to cuddle him
oftly.
How empty thine arms when he nest-
les not there!

Give of thy best for his life prepara-
tion,
Then send him from thee making no
moan.
Arm thyself strongly for that separa-
tion,
He must face foes and fight battles
alone.

New Convent for McSherrystown.

Arrangements are being made to
tear down the old convent building in
McSherrystown, fronting Main street,
also the three story large back build-
ing attached. A new building with
modern conveniences will be erected
on the old site. The location and sur-
roundings will combine to make the
new structure one of the handsomest
in southern Pennsylvania.

The convent of McSherrystown dates
back to 1843, when the trustees of the
young ladies' school asked the Sisters
of Charity of the Emmitsburg convent
to take charge. In 1840 the school
building was burned. The trustees lost
no time in erecting a new house and
this building with 5 acres of land was
sold to the Sisters of the Sacred Heart
by whom the buildings were extended
and the schools conducted until their
removal to Eden Hall in 1851.

In 1854 the Sisters of St. Joseph pur-
chased the convent buildings and were
incorporated under the title of the Mc-
Sherrystown Novitiate and Academy
of St. Joseph, Aug. 31, 1854. Part of
what is now the convent proper was
used in the academy until 1883, when
the present spacious buildings were
erected. In this year the department
for the education of the blind was
established. Together with the acade-
my the Sisters have charge of the
parochial schools in the borough. By
the will of the late Vincent O'Boyle the
Sisters are also in possession of a
large and valuable farm adjoining the
convent limits.

Adams Co. High Grade Copper Ore.

The President and Vice-president of
the Virginia Copper Company, which
has purchased large tracts of land on
the border line of Adams and Franklin
counties, near Charlestown and Blue
Hedge Summit, a few days ago pur-
chased of Harvey W. Gladson another
tract, making 27 acres of copper land
which the company now owns around
Charlestown and which will be a great
addition.

The new tract lies along the West-
ern Maryland railroad. The company
has had a diamond drill core taken
from the land. The ore is said to be
the cores obtained by drilling a 60 ft.
copper of a high grade. The company
for active mining of the ore are now
progressing. Work will begin about
the middle of April.

McSHERRYSTOWN NEW SCHOOL

Handsone New Parochial School Building Has Been Completed and Accepted.

For several years it has been found
that the buildings occupied by the
schools of St. Mary's parish were not
only inadequate to the large enroll-
ment of pupils, but also unsanitary,
therefore, at a meeting of the congre-
gation about a year ago, it was de-
cided that with the consent of Right
Rev. J. W. Shanahan, bishop of Har-
risburg, an up-to-date, commodious
school building would be erected by
the parish.

J. A. Dempwolf of York was the
architect selected, and John Coulson
of Hanover the contractor. Work was
commenced last spring and about the
first of February of this year the
schools were transferred to the new
building.

The structure presents an imposing
appearance. It is built of brick, with
trimmings of Indiana limestone, to
correspond with St. Mary's church and
rectory, which it joins. It consists of
two stories and a basement. Later
the basement will be fitted up as play
rooms for the children and bowling
alley and gymnasium for the young
men of the parish. There are twelve
class rooms, six of which are now in
use, but it is thought that next year
eight teachers will be employed.

The auditorium, with a seating ca-
pacity of 600, is especially worthy of
note. The stage is large and well
equipped with scenery, painted by
Graham of New York City. At a
cost of \$30,000 this handsome building
has been erected and suitably furnis-
hed. The parish can congratulate itself
that it has the finest group of paro-
chial buildings in the diocese.

But the building does not make the
school. The instruction of the three
hundred or more children is superin-
tended by the zealous pastor, Rev. A.
L. Reutter, through whose efforts
this edifice, which will mark an ep-
och in the education of the coming
generation, has been erected. The
teaching is in charge of the Sisters of
St. Joseph, most of whom have taught
in the schools of Philadelphia, and are
skilled in the latest methods.

VALLEY HAPPENINGS.

BUCHANAN VALLEY, April 13.—
Martha O'Donnell, a former resident
of the valley, but for the past ten years
an inmate of the County Home at Get-
tysburg, died there on Sunday, Mar.
29. It was her wish to be interred
in St. Ignatius Cemetery in Buchanan
Valley, and James Cole, of the "Nar-
rows," had her remains brought up
on Monday, Mar. 31. Rev. F. C. Noel
celebrated a requiem mass for the re-
pose of her soul. She was upwards
of 60 years old. When a child Jacob
Kohl, a brother of George, Francis and
John, adopted her while living in
Franklin county, Pa., and when Uncle
Jake and Aunt Polly, as she called
them, died, Francis gave her a home
in his house.

She was devoted to James and Fran-
cis, Jr., as little children, and was
their constant companion, guiding
their infant minds, and footsteps,
and instructing them with jealous care
and tender solicitude she taught them
their earliest prayers, and when they
grew to manhood, she held them in
the highest esteem. As a mark of
gratitude James Cole left nothing un-
done to give her Christian burial and
to let her rest in the spot she loved
and desired, and the two brothers hon-
ored her in death by nobly following
her remains to the grave. Jacob J.
Kohl, as also Albert and Joseph, aided
in the burial.

Her sufferings and privations in the
world are over, as she suffered the loss
of her sight for a great many years,
and God who knoweth her simple life,
and sufferings, will mercifully reward.
The pall-bearers were Jacob J. Kohl,
John F. Cole, Charles Shorb, Francis
Kimpke, and Edward Shultz.

Cole visited Miss Mary Dillon at the
home of William Breckenridge in Fay-

Latest Map of Battlefield.

A Relief Map in wood is the latest
map of the Battlefield of Gettysburg,
and is made from the original topo-
graphical map surveyed by authority
of Hon. Elihu Root when Secretary of
War 1899-1904. The battlefield com-
missioners Col. John P. Nicholson,
Mayor C. A. Richardson and Gen. L.
L. Lomax directed the surveys for the
map and they were made by their
engineers, Col. E. B. Cope and assis-
tants, S. A. Hammond and H. W.
Mattern, and E. W. Hewitt and A.
H. Partner. The wood model was con-
structed by Col. Cope and J. C. Wjer-
man and during the next month is on
display at the War Library and
Museum of the Military Order of the
Loyal Legion of the United States, at
Flanders Building 15th Walnut St.,
Philadelphia.

The Map is an accurate representa-
tion of the topography of the field
with all existing buildings, roads, and
avenues, on a horizontal scale of 200
feet to the inch and on a vertical scale
of 72 feet to the inch and embracing an
area of 24.15 square miles. The Map
is the original model and is 9 feet 3
inches in width, and 12 feet 8 inches
in length and is constructed entirely
of wood. It is composed of successive
layers of white pine strips 1-6 inch
thick, cut to the shapes of the corres-
ponding contours on the topographical
map, glued and pegged together. Each
layer represents a vertical height of 12
feet. The grain of the wood in one
layer running in a different direction
from the one under it. With the
topographical map as a pattern the
contour, representing the lowest level,
was first cut out and on this one as the
base the next higher contour was then
glued in its proper place; thus each
contour was cut out, glued, and pegged
together, until every hill, ridge and
the entire surface of the field is built
up and shown in successive terraces of
wood. The sharp steps were then
shaved down giving the proper pre-
sentation of the slope of the ground.

HOW TO PREPARE A MIXTURE TO CURE RHEUMATISM

This Town Has Its Share of Dread Disease Which Is Said to Yield to Simple Home Recipe.

To relieve the worst forms of rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt after the first few doses.

The prescription, states a well-known authority in a Cleveland morning paper, forces the clogged up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes rheumatism.

As rheumatism is not only the most painful and tortuous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose of two daily, or even a few times a week, would never have serious kidney or urinary disorders or rheumatism.

Cut this out and preserve it. Good rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers so prefer.

L. L. LEWIS, well known auctioneer at Latimore township, fell from an apple tree last week, bruising his face severely.

An Insidious Danger

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Peoples Drug Store.

To have perfect health we must have perfect digestion, and it is very important not to permit of any delay the moment the stomach feels out of order. Kodol is a natural digestant and will digest what you eat. Sold by Peoples Drug Store.

KODOL for Dyspepsia has helped thousands of people who have had stomach trouble. This is what one man says: "E. C. DeWitt & Co., Chicago, Ill.—Gentlemen—In 1897 I had a disease of the stomach and bowels. I could not digest anything I ate and in the spring of 1902 I bought a bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper. Yours very truly, C. N. Cornell, Roding, Ga., Aug. 27, 1906. Hall's Catarh Cure is taken internally, and acts directly on the blood and purifies it. It is not a quick medicine. It was presented by one of the best physicians in this country for years and is a regular prescription. It is composed of the best known purifiers, combined with the best known cathartics. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarh. Send for testimonials free.

KENNEDY'S Laxative Cough Syrup, the cough syrup that tastes nearly as good as maple sugar and which children like as well to take. I think nearly all other cough remedies, it does not constipate, but on the other hand it acts promptly yet gently on the bowels, through which the cold is forced out of the system, and at the same time it allays inflammation. Always use Kennedy's Laxative Cough Syrup. Sold by Peoples Drug Store.

Skating or Swimming.

Some one once asked "What shall I do for New York for information as to the prospects of a politician who was popularly supposed to be 'on the ragged edge'?"

"Well," said Sullivan, "he seems to think he's getting on all right; but there are other who entertain a different opinion. The situation reminds me of the story of the old woman in Maine. Being asked as to the whereabouts of her husband, she replied:

"If the ice is as thick as Jim thinks it is, he is skating; if it is as thick as I think it is, he is swimming."—Sunday Magazine.

Simple Home Remedy.

Often it is inconvenient to get a doctor for a cut or abrasion where there might be danger of blood poisoning. In such case try this simple home remedy: After the wound is thoroughly washed with some antiseptic solution and the poison removed the cut will often heal nicely if cloths wet in sweet oil are kept on the place until the flesh has perfectly healed. One young woman, who this last summer tore her hand badly on a barbed-wire fence, used nothing else on it but these sweet-oil cloths, kept renewed whenever they grew dry, and has not even a scar to show for her injury.

Fountain Built 800 Years Ago.

Among the old fountains in the Temple Area at Jerusalem one of the finest is known as Bab Silsila.

The inscription, which is well preserved, states that it was erected about 800 years ago, and for centuries, as at the present time, it has been fed with water brought in pipes from Solomon's Pools, nine miles away.

How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. Orinax Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orinax Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. Peoples Drug Store.

"One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by The Peoples Drug Store.

"But when they fall! A fall from five-foot stilts often makes a hole in the ice."

Yes, I Have Found it at Last.

Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905, the itching has stopped and has not troubled me.—ELDER JOHN T. Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. Does It Cost You==

TIME to read through the daily and weekly newspapers, the magazines and reviews, and the special journals that constantly clamor for attention? Can you find time to read enough of them to keep posted even on the important topics of human interest at home and abroad? Does the time demanded by so many periodicals leave you time enough for books?

DOES IT COST YOU—

MONEY to buy even a fairly representative list of papers and magazines? Can you afford to subscribe for as many as would be necessary to give you a complete survey of the world's politics, art, religion, industrial affairs, literature, etc? Even if you had the time to read them, would you be able to buy several thousand periodicals, domestic and foreign?

DOES IT COST YOU—

WORRY to sift out the conflicting rumors and to get at the true meaning of every great industrial, political and economic question before the people at the present time? Does it worry or weary you to "keep posted" in this busy, hustling age when there are so few moments for quiet reading and so many demands for your money?

Why Not Take This Up—

THE LITERARY DIGEST is a time-saver, a money-saver, and a worry-saver. Says Editor Markham, author of "The Man with the Hoe": "It gives you in an hour or two, for only ten cents a week, a complete survey of the world. All the leading dailies, weeklies, monthlies, and quarters of America, Europe, Asia, Africa, and Australia contribute to it in the best of its kind. It gives all sides of all questions, and organized information on all topics. At all news-stands, every week, illustrated, ten cents."

Granulated corn resembles broken rice. So great was the demand, though late in the season, there were 750 calls for this feed last year. He is now prepared to fill all orders at the mill at 80 cents per bushel, notwithstanding cracked corn is quoted at \$1.40 per bu., wholesale in Baltimore, Md. We will prepare corn for the farmers at 10 cts. per bushel. Poultry men should use this feed.

CAUSE OF NERVOUS BREAKDOWN.
Profession of Dressmaker a Toil That
Kills in the End.
"These are the reasons, and they
only are suggested—that thousands of
our dressmakers are ill every year
with nervous prostration; that as
many more go to the wall and give
up work; that none of them ever make
a competence, although their work
should assure it.
"It is the general outline of the rea-
sons that I, Anne Bannerman Sedge-
wick Pitt, at 38, am at the end of my
string and have reached a parting of
the ways in which I know not how to
turn or what to do next. That I, a
fine looking woman, as you see, with
a speaking voice that once would have
gotten me a place upon the stage, and
with a hundred letters telling of my
worth and skill, can think of nothing
better to do next than to try to get a
job of demonstrating until I can get
away from the octopus of the com-
posio woman who wants clothes made.
And yet I love my work, and don't
know how I shall do without the long
evenings, as well as days of thought
and toil for which I have given up
social life and recreation for 18 years."

HAD STORED HONEY IN HOUSE.
Industrious Bees Had Hive Between
Floors of Dwelling.
For several years Patrick Prender-
gast of Abington, Pa., lived in a house
along the Old York road, not knowing
that a swarm of bees also considered
it their home. The swarm lived be-
tween the first and second floors, di-
rectly beneath the beds occupied each
night by Prendergast and his family.
The house where Prendergast lived
with a really sale, passed into posses-
sion of John Lambert, Jr., a promi-
nent Philadelphian, with a country
place at Abington. In line with pro-
jected improvements, Lambert ar-
ranged to have the house moved back
from the present foundations, pre-
liminary to having it remodeled, the
structure being more than 100 years
old.
Workmen discovered the presence
of the bees, and an apiarist employed
to remove the swarm found more than
200 pounds of pure honey between the
second floor and the ceiling of the
first. It being assumed that Mr. Lam-
bert took title to the honey with the
house, the honey was turned over to
him.
Selected Her Own Coin.
This curious incident of travel in
Africa is told by A. Henry Savage
Landon: "I wished to buy a bag of
grain, but the woman who owned it
would on no account accept silver
money for it, nor any article which
she saw in my camp. My Somali
servant had a bright idea—the only
one he had during the entire journey
across Africa. He went to one of the
boxes of provisions and tore off a
highly colored label from a corn beef
tin. Having licked it copiously, he
stuck it in the middle of his forehead.
Inquisitive, like a woman, the Carayu
asked him what he did it for. The
Somali said he had been seized with a
violent headache and the colored pa-
per was a certain cure. The Carayu
at once offered the grain if the Somali
would part with the magic paper. Her
wish was satisfied without delay and
the woman departed happy."
Ingenious Device.
A whole closet in one hanger is the
ingenious device of a Wellesley girl.
She planned it to carry in her trunk
while visiting a flat dweller during
the holidays. It is made of a round
piece of wood a half or three-quarters
of an inch in thickness and eight
inches in diameter. To one side of
the wood small brass hooks are
attached, on which the waists and
skirts are to be hung. On the other
side one large hook is screwed in the
center, to be used for fastening on
closet nails or door knobs. Around
the outer edge of the board muslin (an
old sheet will do) is tacked in big
plaits so as to cover all the skirts
and waists. The bottom of the mus-
lin is finished with a drawstring so
that it may be pulled tight to keep
out the dust.
Senator Knox on Memory Training.
Senator Philander Case Knox was
driving a friend from the railroad sta-
tion to his farm at Valley Forge when
an incident occurred which called to
mind a certain passage from Pope's
"Essay on Man." The visitor quoted
the lines, and Senator Knox, much to
the surprise of his guest, took it up
and gave the lines following.
"How did you happen to know
that?" he was asked.
"If you will repeat any line from the
Essay," said the senator, "I can give
you the context, for I know every word
of it. I have paid particular attention
all my life to memory training and
when I was quite young I received a
prize for committing to memory 1,000
verses from the Bible."
A Warm Allusion.
"Do you see that man across the
street?"
"Yes; who is he?"
"The greatest fellow for giving you
hot air you ever came across."
"Oh, a bluffer."
"Not at all. He is at the head of a
big heating company."
A Little Mixed.
Mr. Smart—"Don't you think Poeticus
weakens his work by so much allitera-
tion?"
Mrs. Malaprop—"Yes, but in these
ingenious days you can't get anything
that is pure or strong. People alliter-
ate everything."

MADE THE CONGREGATION GASP.
Northerner's Liberalty Astonished the
Colored Brethren.
A northern gentleman, visiting in a
southern village, attended church at a
negro meeting house. When it came
time for the collection to be taken,
two deacons seated themselves beside
a table before the pulpit, with the
plate between them.
One of the congregation rose,
and stepping forward, deposited a cent
or a nickel upon the plate before the
eyes of the watchful deacons. When
all the members had gone forward the
northern man took a half-dollar from
his pocket, and leaning forward and
touching a negro on the shoulder,
handed it to him and motioned toward
the pulpit.
The colored brother rose with alac-
rity, but with eyes big with astonish-
ment, and holding the coin between
the tips of his fingers and extending it
high in the air where all might see
it, he marched slowly and ostentat-
iously forward.
He was about to deposit it on the
plate when one of the deacons mo-
tioned and whispered to him. The ef-
fect was instantaneous. The coin-
bearer lowered the coin out of the
public gaze and stepped back to the
donor.
"Please, sah," he said, in a low
voice, "does you want some change
back—and how much?"
The visitor shook his head. Again
up went the coin, borne by a smiling
negro, and with a clangor and an au-
dible buzz of approval from the specta-
tors, it fell into the plate.
Watched by the deacons, the
preacher counted the funds. "The col-
lection this morning amounts to 88
cents," he announced. "We will now
enter upon a service of thanksgiving."

SAYS MANY WOMEN ARE BALD.
Hairdresser Refutes Idea Which Has
Become General.
"Why is it men get bald and women
don't?"
At this question the hairdresser
laughed.
"My dear sir," he said, "there are
quite as many bald women as men. In
fact, I incline to believe that there are
more."
He pointed to the switches, curls,
fronts, fringes, and complete female
wigs in his window.
"Why should those things exist if
women didn't get bald?" he said. "The
hairdresser puts in all his spare time
in making false hair contrivances, and
nine out of ten of them are made for
women. Well, woman wouldn't wear
them if she didn't need them, would
she?"
"When man gets bald, he acknowl-
edges frankly this injury that the
years have done him; he lets all the
world see his bare and hideous white
scalp. But when woman gets bald,
she brings up over her bald spot the
long locks above her ears and at the
back of her neck, and she further con-
ceals her baldness with a switch, or
false curls, or a fringe, or whatever
best suits her.
"Yes, take a hairdresser's word for
it, woman's hair is no better than
man's—there are as many bald wom-
en as men—but woman hides her
baldness, whereas man lets his be
seen."

AS SUBSTITUTE FOR FOOTBALL.
Writer Suggests That Plowing Matches
Would Be Advisable.
A plowing match will help to inter-
est boys in farming, and perhaps be
quite as profitable in the end as a
football match. A plowing match is
managed by measuring off equal tracts
to be plowed by each contestant, the
time being noted at the start and a
limited time allowed for finishing the
track. The contest is to be judged
by the straightness of the furrows,
the evenness of the furrows both as
to depth and width, and the amount
of land plowed within the time limit,
after which suitable prizes are award-
ed. Stock judging contests, butter
making contests and butter scoring
contests will all add interest and a de-
sire to excel on the part of the pupil.
If a boy is of a mechanical turn
give him an introduction to farm me-
chanics. Experiments showing the in-
fluence of grade on the draft of a farm
wagon may be made with a simple ap-
paratus the boy could construct him-
self. It can also be easily shown how
draft is influenced by the width of
tire as well as by the size of the
wagon wheel, also the direction of line
of draft and its influence on the draft
of the wagon. Let a boy with a me-
chanical head make an apparatus for
demonstrating the principles of even-
ers, or let him make a working model
of a farm pump.
Thus in various ways it is possible
to show the boy who thinks he knows
it all that he still has something to
learn, and to show the plodding boy
that there is much beside drudgery on
the farm if he will but open his eyes.

SOME OF HIS OWN MEDICINE.
Irate Citizen Found He Had to Deal
with Worthy Adversary.
An irate citizen dashed up the
stoop, nearly pulled the old-fashioned
bell out of the socket, stormed till the
master of the house appeared, and
thus saluted him: "Sir, I'm going to
thrash that boy," shaking his finger
in the direction of a youngster of
some 12 years. "It is outrageous that
you should allow him to be so mean
and contemptible. I don't suppose
you ever whipped him in your life!"
"I certainly never did," replied the
master of the house meekly; "I do not
believe in corporal punishment."
"Well, I do, and I'm going to tan
that young scoundrel's hide. If he had
a licking a week he wouldn't be so
great a nuisance to your neighbors.
I'm a patient man, but he's too much
for me. I wish you would understand
that I'm going to thrash him!"
"My friend, I cannot help what you
do. The law apparently is in your
hands. If you insist upon it, go ahead
and lick him."

The boy was getting an awful trou-
ncing when a strange man appeared on
the scene with fire in his eye. He "lit
into" the irate citizen and nearly wal-
loped the hide off him. When the lat-
ter could escape he appealed to the
master of the house, saying in gasps:
"Didn't you — say—I—could—I lick
that boy of yours? Who was that fel-
low who attacked me?"
"Oh, I have no boy. That was the
boy's father."

Plant Like a Camel.
The nearest thing to a camel among
plants is a curious specimen of the
cucumber family which bears the
name of the Ibervillea sonora. This
plant, like the camel, is a native of the
desert and it has to go without water
longer than the animal.
As the rainy season in the desert
comes only once a year nature pro-
vides the I. S. with a reservoir to
store up enough moisture to last it
between times. The organ in which
the water is stored is located at the
base of the stem. It is covered with
a sort of mackintosh envelope,
through which the water can neither
escape nor evaporate.
This water holder rests on the sand
throughout the entire period of
drought, but when the rain comes it
springs into activity.

Earliest Known Trousers.
The head of the ancient Babylonian
was carefully protected from the sun
by various wrappings; it was suf-
ficient for the rest of the body to wear
a thin woolen or linen garment bound
at the hips with a girdle or shawl,
over which sometimes another gar-
ment was picturesquely draped. In
Babylonia, and Assyria also, head and
foot coverings were subject to fashion,
but the long, close-fitting garment for-
tunately never went out of style.
Trousers—the unaesthetic invention of
the Medes—are first found on the
Parthian stele of about the first cen-
tury, B. C., which was excavated in
Assyria.

French Married Life.
The high average of reasonably
happy marriages in France, where
marriage is mostly a family arrange-
ment, is not so inexplicable as we
might think. One thing, we suppose,
the foreigner will never be able to ex-
plain, and that is how the French girl
passes from her obscure and untried
existence before marriage to the wis-
dom and self-possession of the young
French married woman, who seems to
wield the experience of all the ages.
The adaptability of French women is
beyond praise, as it is legend explana-
tion.

Battered Heroes.
"What do you suppose makes the
girls go so wild over the football play-
ers in preference to other young
men?"
"I suppose it's a woman's passion
for remnants."
